Subject index

Key: A = abstract; c = correspondence; e = editorial; r = review article; S = supplement

A

Acute renal failure
- and rhabdomyolysis 486e
- caused by intra-abdominal pressure 63c
- CAVH and CAVHD for 478c
- dialysis and complications 349r
- hyperkalemia and cardiac arrest, treated with haemodialysis 325
- prevention of gastrointestinal haemorrhage, pharmacokinetics of aluminium-containing antacids 84
- rhabdomyolysis and plasma exchange 528
- therapy with CAVH in pediatric intensive care 224
- veno-venous haemofiltration, severity of illness and outcome 358

Acute respiratory failure
- comparison of PSV and assisted ventilation 364
- evaluation of gas exchange with volume, controlled and pressure-controlled ventilation 406A
- hyperventilation and barotrauma induced by salicylate, experimental, sheep 8
- leptospirosis with pulmonary haemorrhage 322
- polytrauma in children S50
- SDD for prevention of nosocomial infection during differential lung ventilation 15

Adult respiratory distress syndrome (ARDS)
- acute pancreatitis and thoracic duct drainage 372
- and cardiogenic pulmonary edema, coagulation, kallikrein-kinin system in 99
- and leukotrienes 422e
- from amniotic fluid embolism, diagnosis 129
- leukotrienes in blood and bronchoalveolar lavage 296
- leukotrienes in unilateral lung injury 439
- oxygen radicals, vitamin E 87
- PGE_1 and right ventricular function 146c
- PGE_1 in multiple organ failure and sepsis, oxygen consumption 2r

AIDS
- intensive care for patients with 481e

Airway pressure
- monitoring during differential lung ventilation and weaning 458

Airway resistance
- measurement of 406A

Alcohol abuse
- evaluation of outcome with APACHE 19

Amniotic fluid embolism
- diagnosis of, causing ARDS 129

Antacids
- prevention of gastrointestinal haemorrhage, pharmacokinetics of aluminum in acute renal failure 84
- sucralfate, gastric pH and bacterial colonisation 479c

Apallic syndrome
- hypoxic brain damage 212

Arrhythmias
- isorhythmic A-V dissociation, related to intrinsic PEEP hyperinflation relieved by PSV, 319
- junctional tachycardia, pacing after open heart surgery 203

Arterial blood pressure
- measurement in septic shock 137
- monitoring of systolic variation, effect of tidal volume during experimental haemorrhage in dogs 368

Artificial heart
- and DIC 408A

Aspergillosis
- pericardial, in bone marrow transplant 330c

Assisted circulation
- cardiovascular surgery 408A
- ventricular assist devices 408A

Assisted ventilation
- comparison with PSV during acute respiratory failure 364

B

Bacterial colonisation
- with antacids, sucralfate, and gastric pH 479c

Bacterial meningitis
- Streptococcus suis and endophthalmitis 545c

Barotrauma
- experimental, sheep, hyperventilation and acute respiratory failure associated with salicylate 8
- pneumoperitoneum during MV 532

Bioimpedance
- measurement of cardiac output during MV 221

Blood coagulation
- kallikrein-kinin system, in ARDS and cardiogenic pulmonary edema 99

Blood gases
- oxygen saturation and calculation methods 385

Blood viscosity
- circulatory shock 72r

Bone marrow
- hemophagocytic syndrome with viral infection, Coxsackie virus A9, 547c
- pericardial aspergillosis in transplant recipient 330c

Brain edema
- and acute midbrain syndrome after tetanus vaccination 53
- and fat embolism 147c
- intracranial pressure control with dihydroergotamine in head injury 523

Bronchoalveolar lavage
- and leukotrienes in ARDS 296
- leukotrienes in unilateral lung injury 439
- nonbronchoscopic for diagnosis of pneumonia, comparison with open lung biopsy during MV 94

Bronchopleural fistula
- differential lung ventilation with low-flow CPAP 209

Burns
- and inhalation injury, fluid therapy 464
- enteral nutrition and fluid therapy, computer-assisted planning 121

C

Carbon monoxide poisoning
- respiratory patterns 414A

Carcinoid tumor
- with hypoxemia 536

Cardiac arrest
congenital abnormality of coronary artery 135
from excessive oral potassium intake 58
hyperkalemic acute renal failure, haemodialysis 325
Cardiac catheterization
haemodynamic monitoring 330c
Cardiac function
effect of intravenous hypoxanthine on isolated rat heart 409A
experimental, chloroquine poisoning in rats, effects of diazepam 390
Cardiac output measurement
by bioimpedance during MV 221
by thermodilution during respiratory cycle in MV 144c
by thermodilution vs. non-invasive monitoring during MV 219e
Cardiopulmonary function
adjustment to exercise after heart transplant 409A
continuous monitoring of S_vO_2 in pediatric intensive care 228
Cardiopulmonary resuscitation
comparison of epinephrine and dopamine 432
physiology of, S5
use of catecholamines 420e
Cerebral artery
rupture of aneurysms and subarachnoid haemorrhage 400
vasospasm and electrical stimulation 405A
Cerebral blood flow
and metabolic rate with plasma volume expander, dextran 40, during head trauma 499
Chest physiotherapy
expiratory flow rate, during abdominal binding 396
Chloroquine poisoning
experimental in rats, effects of diazepam on cardiac function 390
Circulatory shock
blood viscosity 72r
pancreatitis, experimental in dogs 111
Clindamycin
infections in neutropenic patients 412A
CO_2 production (VCO_2)
and hypothermia 406A
differential lung ventilation and pulmonary contusion, end-tidal CO_2, 151
vs. VO_2 during nutrition in respiratory failure 483e
Colloid osmotic pressure
plasma substitutes, albumin 145c
plasma substitutes, diffusibility 116
Coma
blood pressure and prognosis 405A
bullous skin lesions 327c
seizures, by intrathecal administration of contrast medium, amidetrizoate 55
Computer-assisted
enteral nutrition, fluid and electrolyte therapy in burns 121
monitoring of pharmacokinetics, aminoglycosides 233
parenteral nutrition in pediatric intensive care 279
Continuous arteriovenous haemodialysis (CAVHD)
and CAVH for acute renal failure 478c
Continuous arteriovenous haemofiltration (CAVH)
and CAVHD for acute renal failure 478c
for acute renal failure, in pediatric intensive care 224
Continuous positive airway pressure (CPAP)
low-flow for bronchopleural fistula during differential lung ventilation 209
Coronary artery
congenital abnormality, causing cardiac arrest 135
Coronary artery bypass
lactate concentrations in 408A
Cricothyroid membrane
ossification of following minitracheotomy 272

D
Diabetic ketoacidosis
oxygen-haemoglobin affinity with phosphate therapy 495
Diazepam
experimental chloroquine poisoning and cardiac function in rats 390
Differential lung ventilation
airway pressure monitoring during weaning 458
during pulmonary contusion, end-tidal CO_2 and VCO_2 151
leukotrienes in bronchoalveolar lavage fluid 439
with low-flow CPAP, for bronchopleural fistula 209
Disseminated intravascular coagulation (DIC)
and artificial heart 408A
Dobutamine
and dopamine-induced hypokalemia, experimental, in dogs 446, 452
compared with epinephrine during cardiopulmonary resuscitation 432

E
Echocardiography-transesophageal
in bacterial endocarditis 478c
Editorials
new managing editor 1e, 71e
Electrical stimulation
vasospasm, cerebral artery 405A
Endocarditis
bacterial, transesophageal echocardiography 478c
right-sided, nonbacterial following pulmonary artery catheterization 126
Endocrine
response to stress, neonates, sedation S44
End-tidal CO_2
differential lung ventilation during pulmonary contusion, and VCO_2, 151
Enoximone
and congestive heart failure 407A
and dobutamine in congestive heart failure 530
Enteral nutrition
computer-assisted fluid and electrolyte therapy in burns 121
high fat, low carbohydrate, during weaning 290
Enterocolitis
stress-induced, in children S32
Epinephrine
compared with dopamine during cardiopulmonary resuscitation 432
Ethics
and resources in pediatric intensive care S1
ICU organization and outcome of intensive care 415e
Etomidate
sedation for control of status epilepticus 255
European Society of Intensive Care Medicine
newsletter XII 69
newsletter XIII 149
newsletter XIV 335
Expiratory flow rate
during chest physiotherapy, and abdominal binding 396
Extracorporeal CO_2 removal
during MV, for hyaline membrane disease, experimental in rabbits 184
Extracorporeal membrane oxygenation
veno-venous for respiratory distress syndrome, newborns 269
Extravascular lung water (EVLW)
during fluid therapy with electrolytes in sepsis 505

F
Fat embolism
cerebral edema 147c
Ferritin
acute-phase protein and outcome, scoring systems 171
Fluid therapy
enteral nutrition and therapy in burns by computer-assisted decision 121
for burns and inhalation injury 464
resuscitation with hypertonic-hyperoncotic solution 407A
with electrolytes, effects on EVLW in sepsis 505
Free radicals
during IL-2 therapy 413A
effects on vascular endothelial cells 414A
post ischemic injury and MRI 413A
Fulminant hepatitis
and liver transplantation 410A

G
Gas exchange
with volume-controlled and pressure-controlled ventilation, during acute respiratory failure 406A
Gastrointestinal haemorrhage
prevention of, with aluminum antacids, pharmacokinetics in acute renal failure 84
Gastrointestinal tract
stress-induced, enterocolitis, in children S32
Guillain-Barré syndrome
hypokalemia and muscle paralysis, mimicking 534

H
H_2 receptor antagonists
cimetidine and nosocomial pneumonia 479c
intragastric pH and cimetidine 145c
Haemodialysis
calcium-free for hypercalcemia 471
complications during acute renal failure 349r
hyperkalemia, acute renal failure and cardiac arrest 325
Haemodynamic monitoring
cardiac catheterization 330c
in children S27
liver transplantation, in children S73
Haemofiltration
in multiple organ failure with paracetamol intoxication 328c
veno-venous, associated with muscle weakness 328c
veno-venous, outcome of acute renal failure 358
with lactate fluid and lactic acidosis 546c
Haemorrhage
experimental in dogs, effect of tidal volume on arterial pressure, systolic variation 368
Head injury
cerebral blood flow and metabolic rate with plasma volume expander, dextran 40 499
evidence of lipoperoxydation 405A
levels of myeloperoxidase and vitamin E 405A
Heart failure
congestive, effects of enoximone 407A
potentiation of adrenergic agents, dobutamine and enoximone 530
Heart transplant
blood catecholamines and heart rate, exercise 409A
cardiovascular function, adjustment to exercise 409A
metabolic effect of 24 hours cold ischemia 409A
Hemophagocytic syndrome
with infection by Coxsackie virus A9 547c
Heparin/Protamine reaction
platelets and leukocytes 413A
thromboxane A_2 receptor antagonist 413A
High frequency jet ventilation (HFJV)
during pulmonary edema, experimental, oleic-acid, dogs 105
setting of, and intrinsic PEEP 545c
High-frequency oscillatory ventilation
and fluid balance in pulmonary edema, experimental, rabbits 155
Humidification
inspired gases 327c
respiratory mechanics of COPD patients during MV 411A
Hyaline membrane disease
experimental in rabbits, extracorporeal CO_2 removal during MV 184
Hypercalcemia
calcium-free haemodialysis for 471
hypercalcemic crisis during surgery 544c
Hyperkalemia
cardiac arrest and acute renal failure, treated by haemodialysis 325
oral potassium intake and cardiac arrest 58
Hyperventilation
acute respiratory failure and barotrauma induced by salicylate, experimental, sheep 8
Hypocalcemia
severity of sepsis 329c
Hypokalemia
dopamine and dobutamine-induced, experimental, in dogs 446, 452
muscle paralysis mimicking Guillain-Barré syndrome 534
Hypothermia
and CO_2 production 406A
pupil size and reactivity 216c
Hypoxemia
in carcinoid tumor 536
Hypoxic brain damage
apallic syndrome 212

I
Indirect calorimetry
closed circuit method 274
during MV with experimental lung model 196
Infection control
of an epidemic caused by a multiresistant Acinetobacter 166
SDD with norfloxacin 424
Inhalation injury
and burns, requirement for fluid therapy 464
Inotropic agents
dopamine and dobutamine and ventilation-perfusion relationships with MIGET during MV 160
Intensive care unit (ICU)
Organization
cardiovascular monitoring, effects on performance of number of displays, (Part 1) 314, (Part 2) 379
design and nosocomial infection 179
ethics and outcome of intensive care 415e
management of trauma in children S53
resources and outcome 63c
scoring systems and outcome, terminal care 511
Resources
care for patients with AIDS 481e
outcome and scoring systems 260
Interleukine 2 (IL-2)
release of free radicals 413A
Intermittent mandatory ventilation (IMV)
during partial ventilatory support 488e
Intoxication
paracetamol, haemofiltration in multiple organ failure 328c

Intra-abdominal pressure
and acute renal failure 63c
Intracranial pressure
control with dihydroergotamine in head injury 523
Intrathecal administration
contrast medium, amidetrizoate causing seizures and coma 55
Intravascular catheters
central venous, evaluation of Doppler for diagnosis of venous thrombosis 238
jugular and phrenic nerve palsy 132
radial artery associated with nosocomial infections 241
tunnelling of 46
Intravenous hypoxanthine
effects on isolated rat heart 409A
Intrinsic PEEP
and isorhythmic A-V dissociation by hyperinflation 319
and setting of HFJV 545c
cause of inspiratory muscle fatigue during MV 51
Intubation
nasotracheal, nosocomial sinusitis 27
Iron chelation
prevention of cell injury by, during liver transplant 411A
Ischemia
acute limb, serum myoglobin levels 407A
metabolic effect on heart transplant 409A

L
Lactate
concentrations before coronary artery bypass 408A
haemofiltration with lactate fluid and lactic acidosis 546c
Left ventricular failure
vasodilator therapy with nitroglycerin spray 247
Leptospirosis
pulmonary haemorrhage and acute respiratory failure 322
Leukotrienes
and ARDS 422e
evaluation of bronchoalveolar lavage in ARDS 439
in bronchoalveolar lavage of ARDS 296
Lipid emulsion
effects of medium chain triglycerides during parenteral nutrition 250
Lipoperoxydation
in head injury 405A
Liver transplantation
for fulminant hepatitis 410A
haemodynamic monitoring S73
in children, management in ICU S71
nutritional aspects in 410A
oxygen consumption 411A
preservation with UW solution 410A
prevention of cell injury by iron chelation 411A
Lung mechanics
monitoring during MV in infants S13
Lung transplants
cytomegalovirus, diagnosis of 412A

M
Mandatory minute volume ventilation (MMV)
during partial ventilatory support 488e
Mechanical ventilation (MV)
barotrauma and pneumoperitoneum 532
bronchoalveolar lavage, nonbronchoscopic, comparison with open lung biopsy for diagnosis of pneumonia 94
cardiac output measurement with thermodilution during respiratory cycle 144c
differential lung ventilation for pulmonary contusion, prevention of nosocomial infection with SDD 15
extracorporeal CO_2 removal for hyaline membrane disease, experimental in rabbits 184
heat-moisture exchangers and respiratory mechanics of COPD patients 411A
high-frequency oscillatory ventilation and fluid balance in pulmonary edema, experimental, rabbits 155
indirect calorimetry with experimental lung model 196
intrinsic PEEP and work of breathing, inspiratory muscle fatigue 51
measurement of cardiac output by bioimpedance 221
measurement of cardiac output by thermodilution vs. non-invasive monitoring 219e
monitoring and lung mechanics in infants S13
venous microcirculation 414A
ventilation perfusion relationships (MIGET) during dopamine and dobutamine infusion 160
Medical meeting
suggestions for presentation 63c
Meeting summary
3rd international conference on ARDS 332
Metabolic rate
and cerebral blood flow with plasma volume expander, dextran 40, during head trauma 499
Minitracheotomy
misplacement in oesophagus 538
oesophageal perforation 140, 543c
ossification of cricothyroid membrane following 272
Mitral stenosis
and pulmonary hypertension, haemodynamics during pregnancy 192
Mixed venous oxygen saturation (S_vO_2)
monitoring of cardiopulmonary function, in pediatric intensive care 228
Monitoring
cardiovascular, evaluation of performance with central station displays, (Part 1) 314, (Part 2) 379
haemodynamics in children S27
lung mechanics of infants during MV S13
Multiple inert gas elimination technique (MIGET)
ventilation perfusion relationships during dopamine and dobutamine infusion, during MV 160
ventilation perfusion relationships in pleural effusion, effect of position 266
Multiple organ failure
evaluation and outcome prediction 142e
haemofiltration for paracetamol intoxication, 328c
in pediatric intensive care, scoring systems and outcome 79
oxygen transport in sepsis 479c
sepsis, therapeutic use of PGE_1 and VO_2, 2r
Multiresistant bacteria
control of an epidemic Acinetobacter causing nosocomial infections 166
Muscle
fatigue, by intrinsic PEEP during MV 51
paralysis, hypokalemia and Guillain-Barré syndrome 534
weakness, associated with veno-venous haemofiltration 328c
Myeloperoxidase
and vitamin E in head injury 405A
Myoglobin
serum levels after acute limb ischemia 407A

N
Narcotics
fentanyl, sedation with, scoring of pain in children S37
Necrotising enterocolitis
neonatal, surgery for S24

Neonates
sedation endocrine, response to stress S44
Neutrophil elastase
in polytrauma 543c
Nitrogen washout
pulmonary mechanics in papain-induced pulmonary emphysema, experimental, in dogs 308
Nitroglycerin
effects on pulmonary capillary pressure 407A
Non-invasive monitoring
pulse oximetry 540
vs. thermodilution for cardiac output measurement during MV 219e
Nosocomial infection
associated with radial artery cannulation 241
control of a multiresistant Acinetobacter, causing an epidemic 166
incidence, effect of ICU architectural design 179
pneumonia and cimetidine 479c
prevention by SDD 417e
prevention with norfloxacin 424
prevention with SDD during differential lung ventilation for pulmonary contusion 15
sepsis during surgery with Corynebacterium JK 23
sinusitis during nasotracheal intubation 27
Nutritional support
in respiratory failure, VO_2 vs. VCO_2, 483e

O
Oesophagus
misplacement of minitracheotomy tube 538
perforation by minitracheostomy 140, 543c
Open heart surgery
ventricular paired pacing, for junctional tachycardia 203
Organ transplant
cardiac 283r
care of donor, in children S64
care of donor, surgical, anaesthetics and logistics S67
in children S76
in children, immunology S61
monitoring of S_vO_2, 410A
multiple, care of the donor 340r
organ procurement 411A
Oxygen consumption (VO_2)
in ARDS and multiple organ failure associated with sepsis, therapeutic value of PGE_1, 2r
liver transplantation 411A
scoring systems and outcome 64c, 65c
vs. VCO_2 during nutrition in respiratory failure 483e
Oxygen-haemoglobin affinity
effects of phosphate therapy, recovery from diabetic ketoacidosis 495
Oxygen radicals
mediators and lung damage S21
vitamin E-lipid ratios in ARDS and non-ARDS patients 87
Oxygen saturation
calculation methods, blood gases 385
Oxygen transport
in sepsis with multiple organ failure 479c

P
Pacing
ventricular paired for junctional tachycardia, during open heart surgery 203
Pain
anaesthesia, infants S46
by regional analgesia, epidural, in pediatric intensive care S40
scoring during sedation and narcotics, fentanyl, in children S37
Pancreatitis
acute with ARDS, evaluation of thoracic duct drainage 372
experimental in dogs, circulatory failure 111
mediators associated with 412A
Parenteral nutrition
computer-assisted in pediatric intensive care 279
effects of lipid emulsion, medium chain triglycerides 250
Pediatric intensive care
anaesthetic pain management, newborns 546c
cardiopulmonary function and continuous monitoring of S_vO_2, 228
CAVH for acute renal failure 224
computer-assisted parenteral nutrition 279
management of liver transplantation S71
organization for management of trauma S53
regional analgesia, epidural for pain management S40
resources and ethics S1
scoring systems and outcome of organ system failure 79
Pharmacokinetics
aluminium, prevention of gastrointestinal haemorrhage with antacids 84
computer-assisted monitoring of aminoglycosides 233
midazolam, sedation with 37
Phosphate therapy
on oxygen-haemoglobin affinity during diabetic ketoacidosis 495
Phrenic nerve
palsy by intravascular catherization, internal jugular 132
Plasma exchange
in rhabdomyolysis and acute renal failure 528
Plasma substitutes
albumin, and colloid osmotic pressure 145c
colloid osmotic pressure and diffusion 116
dextran 40, metabolic rate and cerebral blood flow during head trauma 499
Pleural effusion
effects of position on ventilation-perfusion relationships with MIGET 266
Pneumonia
community-acquired, scoring systems and outcome 302
diagnosis of, by nonbronchoscopic bronchoalveolar lavage, comparison with open lung biopsy during MV 94
Pneumoperitoneum
and barotrauma during MV 532
Polytrauma
abdominal trauma, diagnosis and therapeutic strategy S57
and neutrophil elastase serum levels 543c
in children, with acute respiratory failure S50
Post-ischemic injury
free radicals and MRI 413A
Pregnancy
haemodynamics of pulmonary hypertension due to mitral stenosis 192
Prenatal
physiology of pulmonary circulation, prostaglandins S9
Pressure controlled ventilation
inverse ratio, VA/Q distribution in ARDS 406A
Pressure support ventilation (PSV)
clinical efficiency 337e
comparison with assisted ventilation during acute respiratory failure 364
during partial ventilatory support 488e
effects on work of breathing 491
for intrinsic PEEP and hyperinflation with induced isorhythmic A-V dissociation 319

Prostaglandins
and physiology of pulmonary circulation during prenatal period S9
in ARDS, multiple organ failure associated with sepsis, oxygen consumption, with PGE_1, 2r
right ventricular function in ARDS 146c
Pulmonary artery catheterization
associated with endocarditis, right-sided, nonbacterial 126
Pulmonary capillary pressure
effects of nitroglycerin 407A
Pulmonary circulation
physiology of, during prenatal period, prostaglandins S9
Pulmonary contusion
differential lung ventilation and end-tidal CO_2 and VCO_2, 151
prevention of nosocomial infection with SDD during differential lung ventilation and acute respiratory failure 15
Pulmonary edema
cardiogenic and permeability, blood coagulation and kallikrein-kinin system in 99
cardiogenic, during pregnancy 31
experimental, oleic-acid, dogs, treated with HFJV 105
experimental, rabbits, fluid balance during HFOV 155
permeability with contrast material 49
Pulmonary haemorrhage
leptospirosis causing acute respiratory failure 322
Pulmonary hypertension
haemodynamics of mitral stenosis during pregnancy 192
Pulmonary vascular resistance
pulmonary mechanics and shunting with vasodilator, labetalol 42
Pulse oximetry
and non-invasive monitoring 540
Pyelonephritis
emphysematous, urinary tract infection 206

R
Regional analgesia
epidural for pain management, in pediatric intensive care S40
Respiratory distress syndrome
newborns, veno-venous ECMO 269
Respiratory failure
nutritional support, VO_2 vs. VCO_2, 488e
Respiratory mechanics
closing volume with nitrogen washout in papain-induced pulmonary emphysema, experimental, in dogs 308
heat-moisture exchangers during MV in COPD patients 411A
Respiratory muscle
fatigue S17
Rhabdomyolysis
and acute renal failure 486e
and plasma exchange in acute renal failure 528
Right ventricular function
in ARDS with PGE_1, 146c

S
Scoring systems
acute-phase protein and ferritin 171
alcohol abuse, APACHE 19
and outcome in the ICU, APACHE 511
and oxygen consumption (VO_2) 64c, 65c
clinical for critically ill in Central Africa 467
community-acquired pneumonia 302
ethics, organization and outcome of intensive care 415e
in surgical ICU, APACHE II 519
organ system failure, in pediatric intensive care 79
outcome of in acute renal failure, veno-venous haemofiltration 358
resources and outcome in ICU 260
Sedation
in neonates and endocrine response to stress S44
narcotics, fentanyl, scoring of pain in children, S37
with etomidate infusion for control of status epilepticus 255
with midazolam, pharmacokinetics 37
Seizures
coma caused by intrathecal administration of contrast medium, amidetrizoate 55
Selective decontamination (SDD)
for prevention of nosocomial infection during differential lung ventilation for polytrauma, pulmonary contusion and acute respiratory failure 15
for prevention of nosocomial infections 417e
with norfloxacin for infection control 424
Sepsis
ARDS and multiple organ failure, therapeutic use of PGE_1, oxygen consumption 2r
dependance of tissue PO_2 on metabolic-haemodynamic parameters 412A
fluid therapy with electrolytes, effects on extravascular lung water 505
severity of, and hypocalcemia 329c
surgical, nosocomial infection with Corynebacterium JK 23
with multiple organ failure, oxygen transport in 479c
Septic shock
arterial blood pressure measurement 137
Sinusitis
nosocomial, with nasotracheal intubation 27
Subarachnoid haemorrhage
cerebral artery aneurysms 400
Surgical intensive care
scoring systems, APACHE II, and outcome 519
Synchronized IMV (SIMV)
during partial ventilatory support 488e

T
Tetanus
immunization, cause of cerebral edema and acute midbrain syndrome 53
Thermodilution
cardiac output measurement during respiratory cycle in MV 144c
for cardiac output measurement vs. non-invasive monitoring during MV 219e
Thoracic duct drainage
treatment of acute pancreatitis with ARDS 372
Tidal volume
effect on arterial pressure waveform during experimental haemorrhage in dogs 368
Tissue PO_2
dependance on metabolic-haemodynamic parameters in sepsis 412A
Tracheal stenosis
by tracheopathia osteo-chondroplastica 60
Traumatic shock
and fluid loss 414A

U
Ultrasonography
Doppler for diagnosis of intravascular catheter-related venous thrombosis 238
Urinary tract infection
emphysematous pyelonephritis 206

V
Vascular endothelial cell
effects of free radicals 414A
Vasodilator
labetalol, pulmonary mechanics, shunting and vascular resistance with 42
therapy of left ventricular failure with nitroglycerin spray 247
Vasospasm
cerebral artery and electrical stimulation 405A
Venous microcirculation
during MV 414A
Venous thrombosis
intravascular catheter-related, diagnosis of with Doppler technique 238
Ventilation-perfusion relationships
effect of pressure controlled inverse ratio-ventilation 406A
MIGET, effects of position during pleural effusion 266
with inotropic agents; dopamine and dobutamine, during MV, MIGET method 160
Viral infection
hemophagocytic syndrome, Coxsackie A9, 547c
Vitamin E
and myeloperoxidase in head injury 405A
ARDS and oxygen radicals 87

W
Weaning
enteral nutrition, high fat and low carbohydrate 290
of differential lung ventilation, airway pressure monitoring 458
Work of breathing
during PSV 491
intrinsic PEEP during MV, cause of inspiratory muscle fatigue 51

Founded in 1975 as **European Journal of Intensive Care Medicine** by H. Lutz, J. Kachaner, K. Peter, J. Tinker, and G. Wolff.

H. Lutz, Mannheim (Managing Editor Vols. 1–3, 1975–1977; Editor Vols. 4–11, 1978–1985). **J. Kachaner,** Paris (Editorial Secretary Vols. 1 and 2, 1975 and 1976). **K. Peter,** München (Editorial Secretary Vols. 1–3, 1975–1977; Editor Vols. 4–11, 1978–1985). **J. Tinker,** London (Editorial Secretary Vols. 1–3, 1975–1977); Editor Vols. 4–8, 1978–1982; Managing Editor Vols. 9–14, 1983–1988; Editor as of Vol. 15, 1989). **G. Wolff,** Basel (Editorial Secretary Vols. 1–3, 1975–1977; Editor Vols. 4–13, 1978–1987). **M. Rapin,** Paris (Editorial Secretary Vol. 3, 1977; Editor Vols. 4–10, 1978–1984). **F. Lemaire,** Créteil (Editor Vols. 11–14, 1985–1988); Managing Editor as of Vol. 15, 1989. **P. M. Suter,** Genève (Editor as of Vol. 11, 1985). **W. M. Zapol,** Boston (Editor as of Vol. 11, 1985). **K. L. Brigham,** Nashville (Editor as of Vol. 12, 1986). **K. J. Falke,** Berlin (Editor as of Vol. 12, 1986). **G. Hedenstierna,** Uppsala (Editor as of Vol. 14, 1988).

The title of the Journal was changed to **Intensive Care Medicine** as of Vol. 3 (1977). As of Vol. 11 (1985) it is the official journal of the European Society of Intensive Care Medicine.
